## PROFESSIONAL SUMMARY

---

Experienced WordPress Plugin Developer and Full Stack Developer with over 7+ years of expertise in PHP, WordPress, Laravel, React, TypeScript, and Gutenberg. Specialized in developing scalable web applications and WordPress plugins with focus on performance optimization, payment gateway integrations, security, and cross-functional team leadership. Proven track record of delivering clean, efficient, and well-tested code.

## WORK HISTORY

---

**Senior WordPress Plugin Developer - Brainstorm Force Ltd.** December 2022 - Present

- Engineered and maintained SureCart WordPress plugin, scaling from ~1K to 100K+ active installations.
- Built 100+ Gutenberg blocks, 50+ Elementor elements, 50+ Bricks elements, and integrated multiple payment gateways delivering advanced eCommerce features.
- Optimized performance through advanced caching solutions, achieved 90% test coverage with PHPUnit and Playwright, and conducted frequent code reviews.
- Tech: PHP, WordPress, Laravel, React, TypeScript, TailwindCSS, StencilJS, SCSS, Gutenberg Block Development, Elementor Custom Elements, Bricks Custom Elements.

**Software Engineer - Paysera Ltd. (Remote, Lithuania)** March 2020 - November 2022

- Worked on Paysera payment gateway core microservices including Checkout, Wallet, and Reports modules serving millions of transactions globally.
- Created and optimized Paysera plugins for WordPress, Shopify, and Magento enabling seamless payment integration for 10K+ merchants.
- Restructured plugin codebase implementing advanced caching mechanisms and comprehensive testing coverage up to 95%.
- Tech: PHP, WordPress, Symfony, React, TypeScript, TailwindCSS, SCSS.

**WordPress Plugin Developer - weDevs Ltd.** February 2018 - February 2020

- Architected and delivered Dokan Multivendor, WP ERP, WP Project Manager, and CartPulse serving 100K-500K active users.
- Enhanced performance through better caching strategies, improved scalability with SOLID principles, and strengthened security protocols reducing vulnerabilities by 70%.
- Tech: PHP, React, Redux, Gutenberg, TypeScript, TailwindCSS.

## Full Stack Web Developer - Akij Group Ltd.

May 2017 - January 2018

- Architected and developed Laravel APIs and React/React Native web applications serving 50K+ employees across business units.
- Key Projects: iApp (Employee Management), iBOS (Business Operations), Akij City POS, iMarine Web App, TEAM App.
- Tech: PHP, Laravel, React, React Native, MySQL, SQL Server.

## EDUCATION

---

B.Sc. in Computer Science & Engineering - Patuakhali Science & Technology University (2015 - 2018)
